Accutron proud member of HuFriedyGroup

The Best In Practice

To our valued Customers and Partners,

On behalf of all my global teammates, I would like to personally thank you for choosing HuFriedyGroup as your partner in delivering nitrous oxide/oxygen sedation solutions. For those of you who might not have heard, Accutron is now a member of HuFriedyGroup after joining forces in 2019 with Hu-Friedy, Crosstex and Palmero, to name a few. The word “Group” encompasses the expanded value we are honored to provide together, with over 200 years of collective experience and commitment to dental professionals.

More recently, in June 2021, HuFriedyGroup became part of STERIS. STERIS is a leading provider of infection prevention and other procedural products and services. We couldn’t be more excited to join the STERIS family as its fourth business segment. Despite a few changes over the years, one thing has remained constant: our focus on delivering you the highest quality product, service, and educational experiences in the dental industry.

Our promise is to help clinicians be the Best in Practice. As our customers keep dentistry moving forward, we will be there every step of the way on this journey. I am so excited to see what the future holds.

Sincerely,

Andy Xilas
President

Who We Are

HuFriedyGroup is the global leader in dental instrument manufacturing, nitrous oxide/oxygen sedation solutions, infection prevention, and instrument reprocessing workflows, with over 200 years of collective experience in the dental industry.

HuFriedyGroup is the combination of Accutron, Crosstex International, Hu-Friedy, and Palmero Healthcare, bringing together a combination of companies under one roof to deliver the products, services, and solutions dental professionals need to be the Best in Practice.

Together, HuFriedyGroup brings world-class products, services, education, and communities that result in superior clinician performance, superior clinical outcomes, and safety for clinicians and patients. Headquartered in Chicago, HuFriedyGroup products are distributed in more than 100 countries, and the dental division maintains offices in Germany, Italy, China, and Japan.

Conscious Sedation Delivery Options

Accutron has been a market leader of innovative nitrous oxide/oxygen sedation products including single-use nasal masks, scavenging systems, manifolds, flowmeter systems and associated components Now a member of HuFriedyGroup, the Accutron product line offers flexible options for each and every practice.

Contact and Service Information

Service Ship-to Address

1733 W. Parkside Ln.
Phoenix, AZ 85027

For a Return Authorization number contact serviceandrepairs@hu-friedy.com.

Accutron Flowmeters carry a 2-year warranty, and Manifolds and other items carry a 1-year warranty. For the full warranty, visit: www.HuFriedyGroup.com/Services/Warranties.

Portable

- Can move between operatories for increased flexibility.
- Occupies less space and no requirement for central storage unit.
- Utilizes E cylinders and is an optimal solution when frequency of administration is low.
- Available in enclosed option to keep cylinders out of sight and make disinfection faster.

Centralized

- Optimal solution when nitrous oxide/oxygen sedation is used frequently.
- Requires central storage area for cylinders and initial investment in gas storage system.
- Utilizes G and H cylinders so more cost-effective over time.

Chairside

- Eliminate long mixed gas and vacuum hoses draping from adjacent cabinets.
- Create uncluttered, safer work zone for doctor and staff.
- Minimize displacement of patient mask caused by drag/pull and weight of long hoses.
- Kits available for a wide variety of dental chair brands.

Flowmeters

We offer a full line of equipment solutions to implement conscious sedation into your practice - your way. Our Accutron™ Digital Ultra™ Flowmeters are available in both mounted and portable configurations so you can choose what best fits your operatory set up.

Accutron™ Digital Ultra™ Flowmeters & Accessories

The Accutron™ Digital Ultra™ Flowmeters are designed for clinicians who prefer to work in a digital environment but want critical parameters displayed both numerically and as electronic flow tubes. With multiple configurations available to suit the needs of your practice, the Accutron™ Digital Ultra™ Flowmeter also features color-coded, fingertip controls, a sealed flush surface for easy disinfection or barrier protection and a clean, contemporary design.

Accutron™ Digital Ultra™ Flushmount Flowmeter

Our Accutron™ Digital Ultra™ Flushmount Flowmeters features automatic compensation to easily adjust total flow or gas ratio while the other stays constant and include both digital and electronic flowtube displays for ease of use.

For patient safety, the maximum nitrous oxide ratio is 70%. Audible and visual alarms provide notification of low oxygen. For additional safety, these Flowmeters feature oxygen fail-safe and flush.

Learn more about our Accutron™ Digital Ultra™ Flowmeters.

Dimensions Flushmount Control Module:

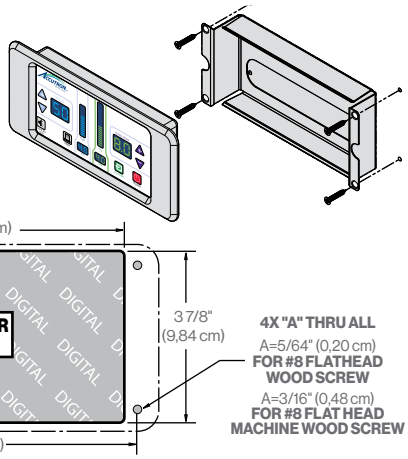
Accutron™ Digital Ultra™ Flushmount Flowmeter Template

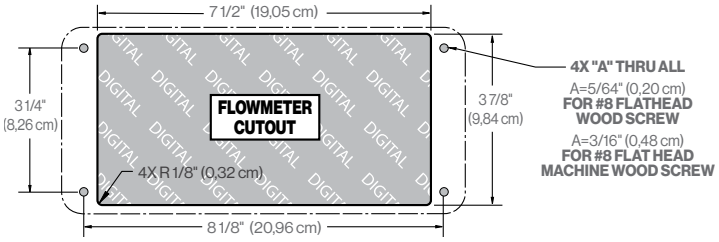
Slimline design separates control module from gas supply module and offers:

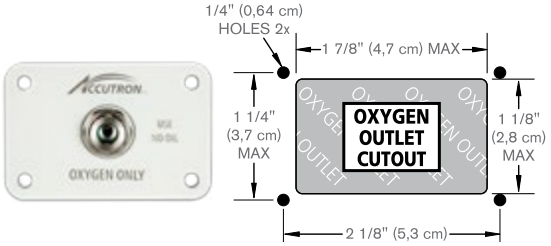
- More accessible cabinet space
- Flexible installation choices
- Mounting in wall as an option

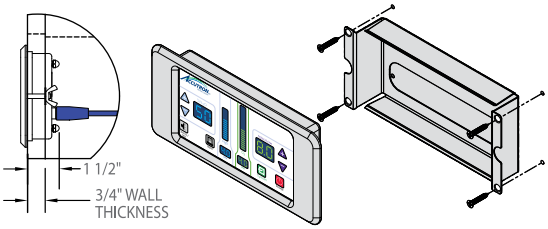
Options for vacuum system controllers include: Standard Bag Tee, Accu-Vac™ Vacuum Controller or RFS™ Remote Flow System.



Accutron™ Digital Ultra™ Flushmount Flowmeter, 56800-CHAIR







1.In advance of construction:

a)Provide for tubing chase from flowmeter location to chair J-Box.

b)Install Vacuum, Oxygen, and Nitrous Oxide risers.

2. Installation:

a)Ensure cut-outs for the flowmeter and oxygen outlet are located correctly.

b) Mount Control Module Bracket, with long slot down. Feed cable through the slot. Connect cable to controller and press controller into bracket. Make sure cable is not pinched. To remove controller from the bracket, insert screwdriver into slot at bottom corner of controller and pry outward.

c) Pull the Mixed Gas and Vacuum lines up to the Remote Flow System mounting location on the chair.

d) Install Remote Flow System to chair. (Requires purchase of brand-specific Chairmount Kit).

e) Complete connections of all hoses.

Accutron™ Digital Ultra™ Flushmount Flowmeter with RFS™ Mounted in Cabinet

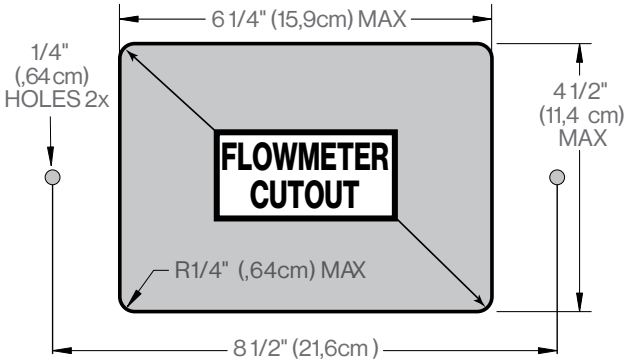
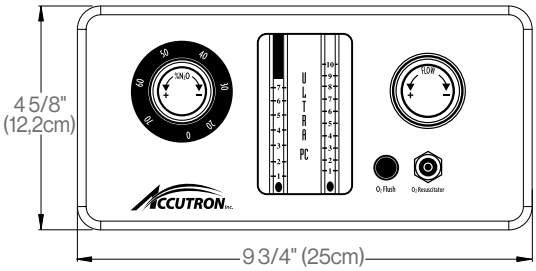
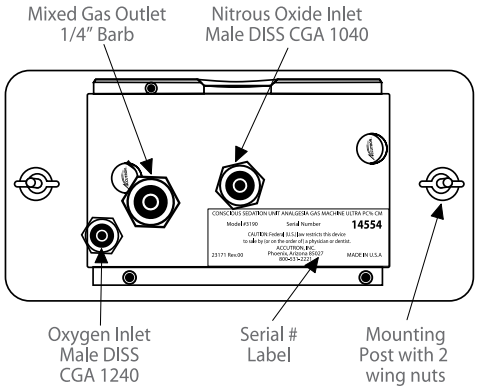
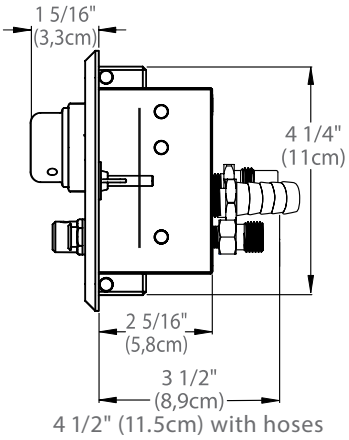
Accutron™ Ultra PC™ % Cabinet Mount, 36800-CHAIR Template









1) In advance of construction:

a) Provide for tubing chase from flowmeter location to chair J-Box.

b) Install Vacuum, Oxygen, and Nitrous Oxide risers.

2) Installation:

a) Ensure cut-out for the flowmeter is located correctly.

b) Mount Ultra PC™ Flowmeter through cutout, install wing nuts, and connect hoses to risers.

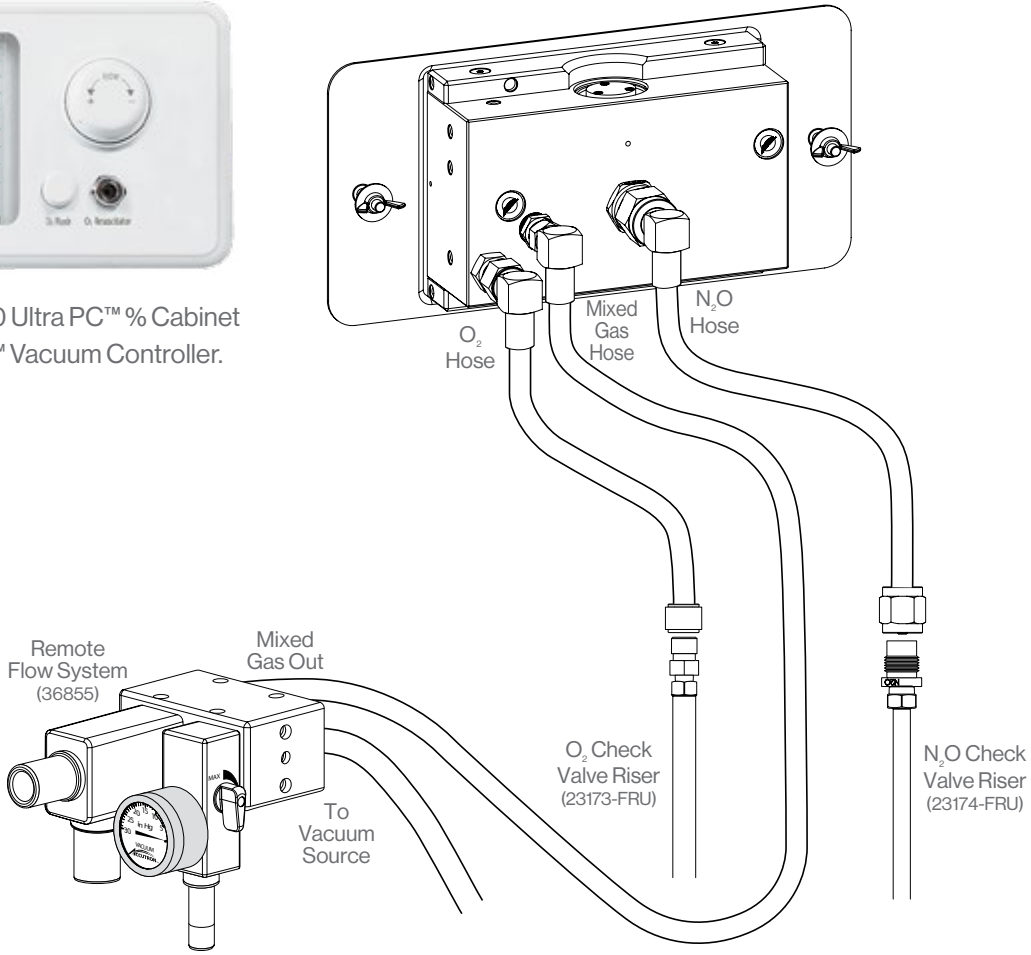
c) Pull the Mixed Gas and Vacuum lines up to the Remote Flow System mounting location on the chair.

d) Install Remote Flow System to chair. (Requires purchase of brand-specific Chairmount Kit).

e) Complete connections of all hoses.

Accutron™ Ultra PC™ % Cabinet Mount Flowmeter Diagram

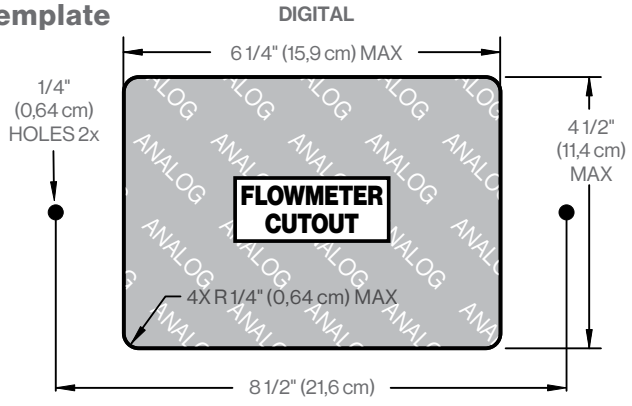
Diagram is specific to 36800 Ultra PC™ % Cabinet Mount Flowmeter with RFS™ Vacuum Controller.



Accutron™ Ultra PC™ % Cabinet Mount Flowmeter Template

- Vertical dimension of cut is 4 1/2" MAX
- Horizontal dimension of cut is 6 1/4" MAX
- Minimum depth is 4 1/2" with hoses attached

Options for vacuum system controllers include: Standard Bag Tee and RFS™ Remote Flow System.



All templates are not to scale.

Accutron™ Ultra DC™ Flowmeter

Our Accutron™ Ultra DC™ Flowmeter features independent oxygen and nitrous oxide controls along with oxygen control with on/off switch, oxygen fail-safe, oxygen flush, oxygen resuscitation connector. This product also includes an emergency air valve, directional check valve and DISS inlet fittings.

Dimensions: 4.25 in x 10.5 in x 8 in (10.8 cm x 26.7 cm x 20.3 cm)
Weight: 4.5 lbs (00 kg)
Mixed Gas Outlet Diameter: .875 in Nominal (22mm)
Oxygen Inlet: Male DISS (CGA 1240)
Nitrous Oxide Inlet: Male DISS (CGA 1040)
Oxygen Flow Range: 3 to 10 LPM
Nitrous Oxide Flow Range: 0 to 7 LPM
Inlet Pressure (each gas): 50 to 55 psi
Resuscitator Connector: Quick Connect (.25 in Imperial)
Resuscitator Connector Flow: 100 LPM Oxygen

56955	**Accu-Vac™ Vacuum Controller** (for use with Digital Ultra™ Flushmount Flowmeter)	**$2,128.00**
36855-CHAIR	**36855-CHAIR Remote Flow System (RFS) Chairmount**	**$1,278.00**

RFS™ Remote Flow System Chairmount Kits

Our RFS™ Remote Flow System Chairmount Kits eliminate long mixed gas and vacuum hoses draping from adjacent cabinets, providing easier access for the doctor. They create uncluttered, safer work zone for doctor and staff and minimize displacement of patient mask caused by drag/pull and weight of long hoses.

RFS™ Remote Flow System Chairmount Kits store scavenging circuit and rubber goods when not in use. A wide variety of kits are available for compatibility with various chairs and mounts to patient chairs without drilling new holes and can be installed in the field whether retrofitted where possible or new construction.

Accutron™ Digi-Flo™ Digital Automatic Switching Manifold Systems 42

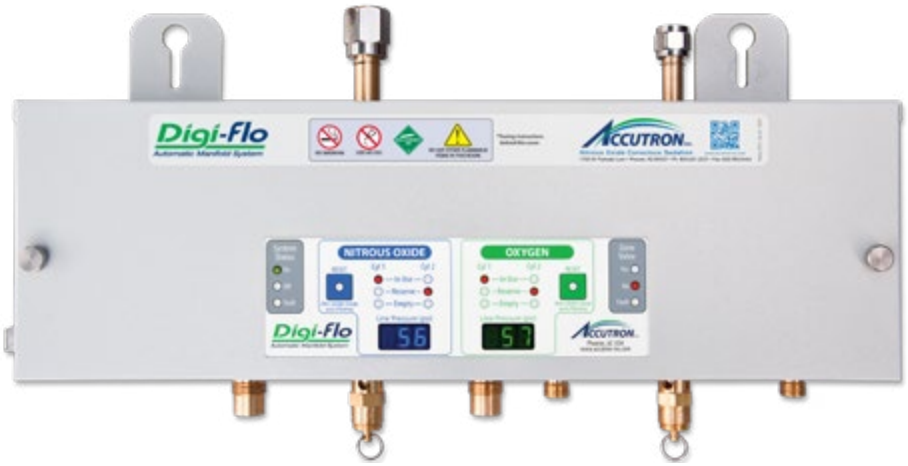
Accutron™ Guardian Monitor™ Manifold/Alarm System 44

Manifold Systems

Our wide variety of Manifold Systems and accessories are designed to safely and economically deliver nitrous oxide and oxygen to dental operatories.

Accutron™ Digi-Flo™ Digital Automatic Switching Manifold Systems

Our Digital Automatic Manifold/Alarm System features an automatic cylinder changeover. Its alarm includes both audio and visual warnings. Designed to safely and precisely provide uninterrupted gas supply to the dental operatory. With easily accessible components, our Digital Automatic Manifold/Alarm System allows for dual alarm panels and up to four zone valves. Includes pre-install mounting bracket allowing for effortless installation.



Manifold Package Contents:

Manifold with pressure gauges and high/low pressure alarm switches, 4 cylinder regulators (2 O_2 and 2 N_2O), four 4 ft DISS hoses (2 O_2 and 2 N_2O), power supply, wall control panel and cylinder restraints.

Zone Valve (49550) required at installation as per NFPA 2021.

Dimensions with Cover: 18 in x 9 in x 3 in (45.7 cm x 22.9 cm x 7.6 cm)
Working Pressure: 50 to 55 psi
Hose Length: 4 ft
N2O Outlet: N2O DISS
O2 Outlet: O2 DISS
Primary Voltage: 120 volts
Cable: Category 6, Shielded, Ethernet 4 twisted pr.

Order 27497-FRU for the Digi-Flo Manifold without accessories.

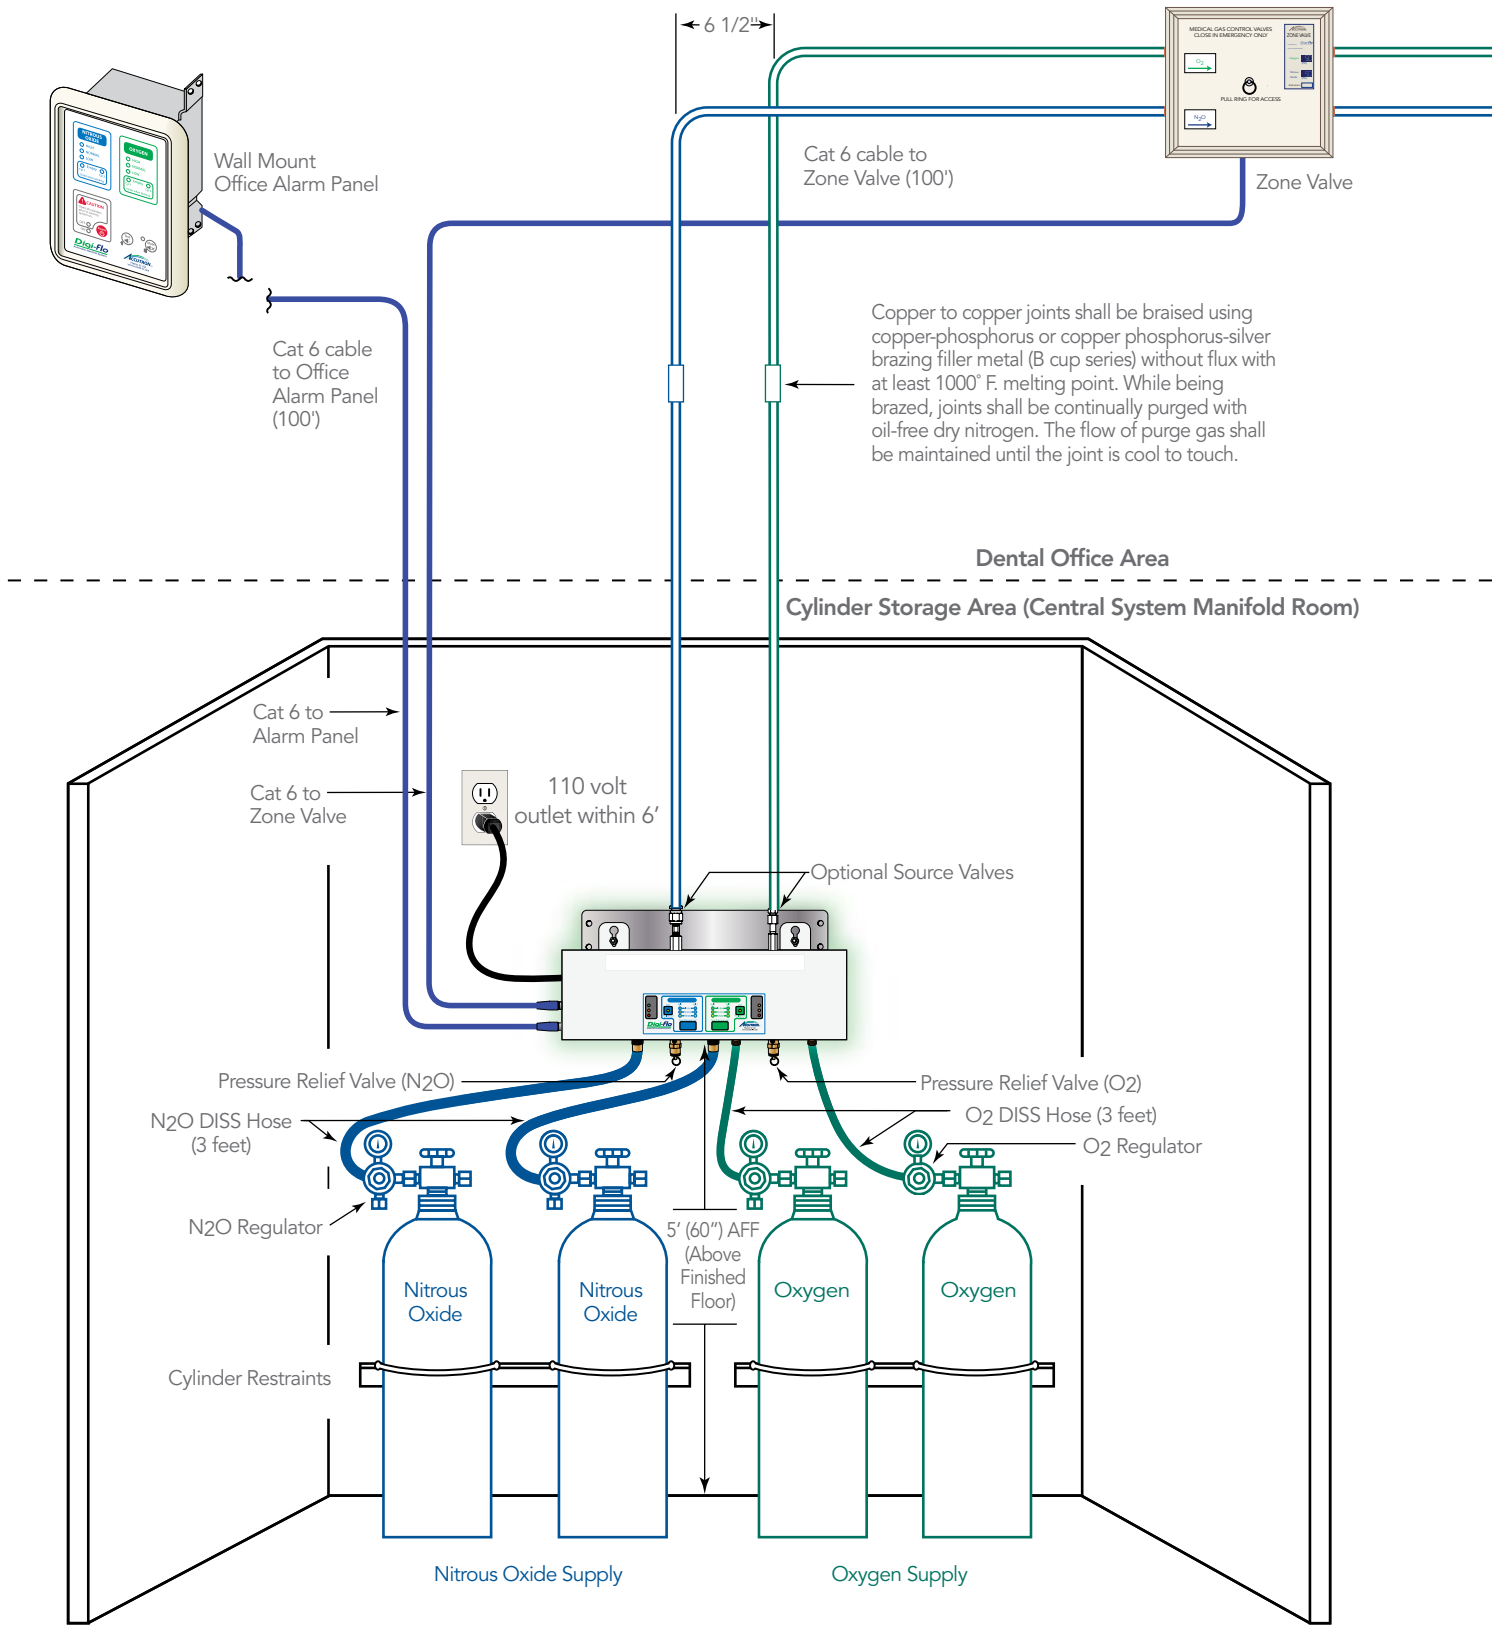
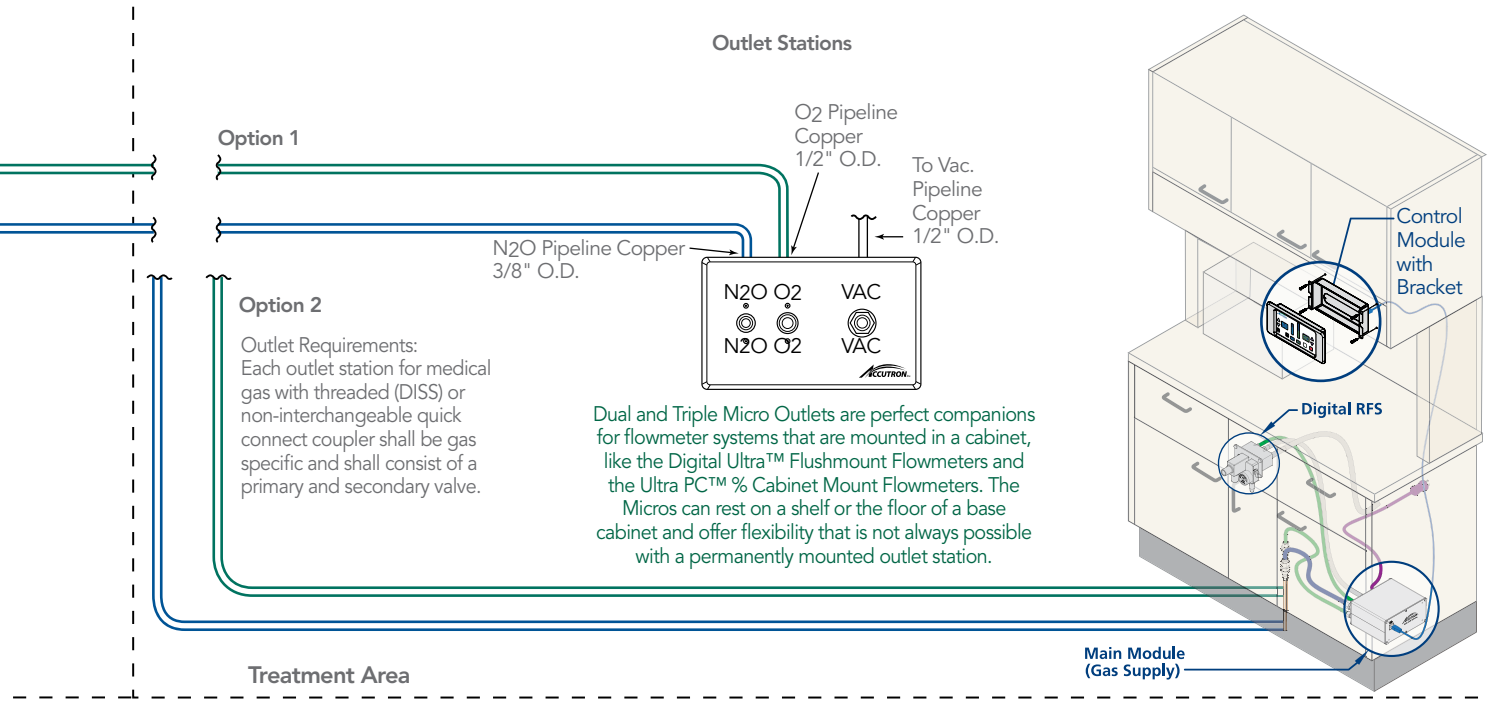
49000	**Oxygen Manifold System** Includes: Manifold, Regulator, 3' Hose, Tank Restraints	**$3,682.00**
49020	**Oxygen Manifold** Manifold only	**$1,200.00**

Central Schematic Diagram

Mains and branches in piping systems shall be not less than 1/2" nominal size.





Medical Gas systems must be installed by a licensed medical gas installer (i.e. ASSE 6010) and be verified by a licensed medical gas verifier (i.e. ASSE 6030) and must be installed in compliance with NFPA 99 requirements.

Cylinder Storage Room Requirements:

No more than 3000 cubic feet of gas connected and in storage at one time (excluding nitrogen). Cylinders should be stored in a locked room or cabinet.

- A separate regulator for each gas cylinder
- A pressure relief valve set at 75 psi
- A check valve down stream of each regulator
- System line pressure set at 50 psi
- When the supply system is remote, the switchover shall be automatic

Flexible tubing must not go through wall(s) or partition(s) and have a minimum burst pressure of 1000 psi. When nonflammable gas supply (N_2O-O_2) cylinders are located inside building, they should be in a separate room or enclosure, and separated from the rest of the building by not less than one-hour fire-resistant construction. Two vents of not less than 72 square inches in area should be included. One vent within 6 inches of the floor and one vent within 6 inches of the ceiling.

Exception: When an exterior wall cannot be provided see code for requirements. Openings between room or enclosure and interior shall be self-closing smoke and draft control, having a fire protection rating of not less than one hour.

General Piping Requirements:

Tubes, valves, fittings, outlet stations and other piping components in medical gas systems shall have been cleaned for oxygen service prior to installation. Piping shall be hard-drawn seamless medical gas tube, type K or L (ASTM B819), and bear one of the following markings: OXY, MED, OXY/MED. ACR/OXY or ACR/MED. Piping for non-flammable medical gas systems shall be suitable for oxygen service. Each length of tube shall be permanently labeled and delivered plugged and capped. Fittings, valves and other devices shall be sealed and marked. The installer shall furnish documentation certifying that all installed piping materials comply with the requirements and that the plumber has the appropriate medical gas license.

Testing Requirements:

Piping Integrity and System Verification Final Testing include:

- Initial Pressure Test
- Blow Down
- Piping Purge
- Static Pressure Test
- Pressure Relief Test
- Cross Connection Test
- Alarm Testing for Gas System

Refer to NFPA 99. The responsible facility authority will review all inspection and testing prior to the use of all systems covered by this requirement.

Note: At the time of this printing, NFPA 2005, 2012, 2015, and 2018 are in use in North America.
It is important to consult with your local municipality to confirm which codes(s) they have currently adapted.

Nasal Masks

We offer four different types of Nasal Masks, in addition to capnography solutions, so you are sure to find a delivery solution that fits your practice. Since introducing our original Accutron™ Personal Inhaler Plus+™ Mask (PIP+) Nasal Mask design, dentistry has evolved and so have we. Our popular mask-in-mask Accutron™ ClearView™ Nasal Mask design and low profile Accutron™ Axess™ Nasal Mask design provide sleek, comfortable options for patients with helpful features for clinicians, as well. And with the American Dental Association's recommendation for single-use masks, we are the only manufacturer with three different types to choose from.

Accutron™ Axess™ Low Profile Nasal Masks

The low profile design of our Accutron™ Axess™ Low Profile Nasal Masks provide unencumbered access to the oral cavity. They fit snugly without tape or uncomfortable tubes protruding into the patient's nostril. Accutron™ Axess™ Nasal Masks include lightweight, autoclavable scavenging circuit that minimize drag and pull, enhancing patient comfort. Available in scented and unscented options. Their translucent design allows for visual monitoring of patient's breathing.

Accutron™ Axess™ Nasal Masks are individually wrapped for greater infection protection, and single-use to minimize cross-contamination. These Nasal Masks are not made with natural rubber latex.

Accutron™ Axess™ Low Profile Nasal Mask (24/box)

53037-9	Small Clear Unscented	$182.00
53037-12	TOP SELLER Small Birthday Bubblegum	$182.00
53037-16	Small Fresh Mint	$182.00
53035-9	TOP SELLER Medium Clear Unscented	$182.00
53035-12	Medium Birthday Bubblegum	$182.00
53035-16	Medium Fresh Mint	$182.00
53034-9	Large Clear Unscented	$182.00
53034-12	Large Birthday Bubblegum	$182.00
53034-16	Large Fresh Mint	$182.00

Accutron™ ClearView™ Single-Use Nasal Masks

The mask-in-mask design of our Accutron™ ClearView™ Single-Use Nasal Masks minimize ambient nitrous oxide in operatory and provide a clear outer mask, allowing visual monitoring of patient's breathing. A soft inner mask creates improved facial seal. The low profile of these Nasal Masks expand clinical field of view. Appealing colors and scents engage and relax patients.

Accutron™ ClearView™ Single-Use Nasal Masks are single-use, minimizing cross-contamination and are compatible with other scavenging circuits, including PIP+™ Scavenging Circuits. Not made with natural rubber latex.

Accutron™ ClearView™ Classic Nasal Mask (12/box)

33037-9	Pediatric Unscented Grey	$95.00
33037-10	Pediatric Outlaw Orange	$95.00

Accutron™ ClearView™ Nasal Masks connect effortlessly to:

*ClearView™ Scavenging Circuits I (**43005** and **43006**)*

*ClearView™ Scavenging Circuit II (**43003** and **43004**)*

Any existing PIP+ Scavenging Circuit

Any Porter™ Brown Scavenging Circuit (no adaptor required)

*Matrx Scavenging System (has one smooth tube on each side and comes with two connections) requires adapter SKU **35360**, **$57.00***

Accutron™ PIP+™ Nasal Masks

Our Accutron™ PIP+™ Nasal Masks set the standard when it comes to conscious sedation therapy. These Nasal Masks provide patients with reliable and comfortable nitrous oxide/oxygen delivery and are single-use, minimizing cross-contamination.

Accutron™ PIP+™ Nasal Masks are lightly scented and brightly colored and available in small, medium and large sizes. Unscented option also available. Not made with natural rubber latex.

33020	**Multi-Use Small Mask** 1 Each	$142.00

*Accutron™ Personal Inhaler Plus+™ Nasal Masks connect effortlessly to Accutron™ Scavenging Circuit I (**33008** and **33010**) and Scavenging Circuit II (**32007** & **32009**). They also connect easily to any brand of scavenging system.*

Capnography Adapters & Bundles

Our line of Capnography Adapters measure patients' end-tidal CO_2, attaching between the nasal mask and scavenging circuit with a female Luer-Lok® port, providing a secure connection to the capnography monitor's sample line.

Capnography sampling takes place within the nasal mask and directly measures the patient's exhalations at the source. These single-use capnography adapters connect to either side of the nasal mask for additional flexibility.

Attaches between the Mask and the Scavenging Circuit.

Accutron™ Axess™ Capnography Adapters

Our Accutron™ Axess™ Capnography Adapters attaches via a Luer, fitting to a capnography machine's sample line for the purpose of monitoring patient end-tidal CO_2.

53055	**Accutron™ Axess™ Capnography Adapters** 24/box	**$108.00**

Connect to capnography monitor sample line and verify patient end-tidal CO_2

Accutron™ ClearView™ Capnography Adapters

Our Accutron™ Clearview™ Capnography Adapters attach between Accutron™ ClearView™ Nasal Mask and scavenging circuit. Capnography sampling takes place within the nasal mask and directly measures patient's exhalations at the source. A female Luer-Lok® port provides a secure connection to capnograph monitor sample line. Accutron™ Clearview™ Capnography Adapters connects to either right or left side of nasal mask for additional flexibility. They are single-use and individually wrapped to minimize cross-contamination. Bundled option with Accutron™ ClearView™ Nasal Masks are available for ease of ordering.

Accutron™ Axess™ Scavenging Circuits **66**

Accutron™ ClearView™ Scavenging Circuits **68**

Accutron™ PIP+™ Scavenging Circuits **70**

Scavenging Circuits

Scavenging is an important part of nitrous oxide/oxygen sedation since it carries the mixed gas to the patient, before being delivered through the nasal mask. Our Scavenging Circuits are sterilizable to meet current safety guidelines, and are available in a variety of configurations to suit your needs.

Learn more about all our Scavenging Circuit products.

Accutron™ Axess™ Scavenging Circuits

Accutron™ Axess™ Scavenging Circuits are steam-sterilizable, making them an environmentally friendly and cost-effective solution for your practice. These slender, lightweight circuits are more comfortable for patients and allow unobstructed access for clinician. Accutron™ Axess™ Scavenging Circuits minimize drag and pull, so nasal masks stay in place.

Accutron™ Axess™ Low Profile Nasal Mask

52005 — TOP SELLER — **$258.00**

Accutron™ Axess™ Scavenging Circuit for In-line Vacuum Controller
Includes 6-foot long low profile scavenging circuit with In-line vacuum controller, complimentary low profile nasal mask assortment, adapters for connecting most non-Accutron vacuum controllers, instructions for use and reprocessing.

52006 — **$234.00**

Accutron™ Axess™ Scavenging Circuit for RFS™ Remote Flow System and Accu-Vac™ Vacuum Controller
Includes 6-foot long low profile scavenging circuit (to be used with RFS and Accu-Vac™ Vacuum Controllers – not provided), complimentary low profile nasal mask assortment, adapters for connecting most non-Accutron vacuum controllers, instructions for use and reprocessing.

53004 — **$80.00**

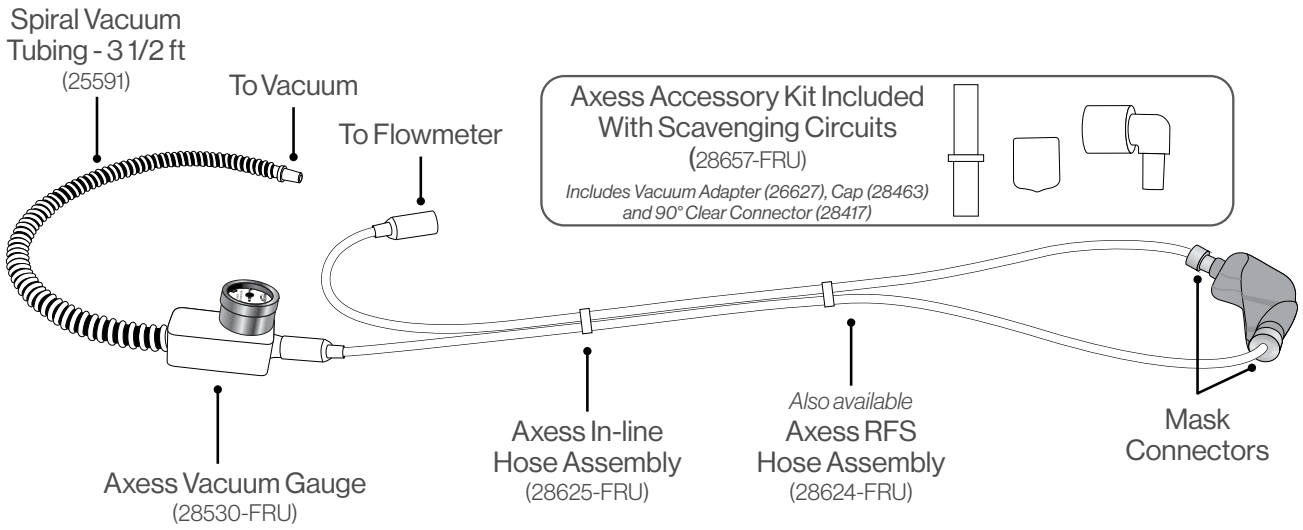
Accutron™ Axess™ Extension Tube
32" autoclavable circuit that allows extension of Axess Scavenging Circuits [i.e., Axess™ Scavenging Circuit for In-line Vacuum Controller and Axess™ Scavenging Circuit for Remote Flow System (RFS) and Accu-Vac™.]

28657-FRU — **$60.00**

Accutron™ Axess™ Accessory Kit
Includes white cap, 90° outspout connector, universal vacuum adapter.

Not made with natural rubber latex.

Accutron™ Axess™ Scavenging Circuit Components Diagram (standard in-line vacuum)



Note: For Axess™ Scavenging Circuits for Remote Flow System (RFS™) and Accu-Vac™ Vacuum Controller, part 28517-FRU is replaced with 28516-FRU, and parts 25591 and 28530-FRU are not included.

Accutron™ ClearView™ Scavenging Circuits

Accutron™ ClearView™ Scavenging Circuits are sterilizable and x-ray compatible. These products meet NIOSH and ADA flow rate recommendations and fit most brands of flowmeters.

Accutron™ ClearView™ Scavenging Circuits for Standard Bag Tee

43003	TOP SELLER **ClearView™ Scavenging Circuit II** (includes Scavenging Circuit with Vacuum Control Valve with White Spiral Tubing, Reservoir Bag, 3' Gray Corrugated Tube and complimentary ClearView™ Single-Use Nasal Masks)	**$976.00**
43005	**ClearView™ Scavenging Circuit I** (includes Scavenging Circuit with Vacuum Control Valve & White Spiral Tubing, and complimentary ClearView™ Single-Use Nasal Masks)	**$854.00**

Accutron™ ClearView™ Scavenging Circuits for Remote Flow Systems and Accu-Vac™

43004	**ClearView™ Scavenging Circuit II** (includes Scavenging Circuit, 6' White Spiral Tube, 3' Gray Corrugated Tube, Reservoir Bag and complimentary ClearView™ Single-Use Nasal Masks)	**$928.00**

Continuous Treatment

The long and narrow design of DUWLs creates the perfect breeding ground for microbial growth. When untreated, or improperly maintained, the water flowing through these contaminated DUWLs and out through dynamic instruments used during treatment can potentially harm your patients, staff and practice reputation. VistaClear™ DP Centralized Waterline Treatment System continuously delivers compliant patient treatment water directly to the dental unit.

Learn more about our Continuous Treatment products.

VistaClear™ DP Centralized Waterline Treatment System

The VistaClear™ DP Centralized Waterline Treatment System filters water centrally for directly connected dental operatories and provides a method for delivering compliant*, on-demand procedural water with reduced microbial contamination (<200 CFU/mL) and odor-causing bacteria buildup when used with the EPA registered DentaPure™ Cartridge. It eliminates the need for dental bottles and water-storage tanks, and the need for purchased water and waterline tablet treatments for bottle systems.

Learn more about our VistaClear™ Centralized Waterline Treatment System.

The Best In Practice

Water Purification

Poor water quality can damage dental instruments inside instrument washers or interfere with proper sterilization. The VistaPure™ Water Purification System eliminates the need to buy bottled water, distilled water or own a distiller with one convenient system.

Learn more about our Sterilization Center Water Solutions.

VistaPure™ Water Purification System

VistaPure™ Water Purification System produces two grades of high-purity water for autoclaves, dental bottles, ultrasonic cleaners and the rinse cycle of instrument washers. It connects directly to the city water supply and sends purified water anywhere it's needed in the steri-center for easy, on-demand use. Optional, autofill devices replenish SciCan STAT*IM*® Autoclave and BRAVO™ Autoclave reservoirs automatically, enabling truly hands-free convenience. Optional adapter kit sends high-purity water to instrument washers with final-rinse ports to help protect dental instruments from poor-quality water.

VistaPure™ Water Purification System
CVV3000 $3,666.90

VistaPure™ Instrument Washer Adapter Kit	CVS3010	$79.85
VistaPure™ STAT*CLAVE*® Adapter Kit	CVS3015	$45.05
VistaPure™ AutoFill Kit for SciCan STAT*IM*® Autoclave	CVS3020	$229.20
VistaPure™ AutoFill Kit for SciCan BRAVO™ Autoclave	CVS3030	$286.35
VistaPure™ Replacement Filter – Prefilter (#1)	CVR3251	$82.90
VistaPure™ Replacement Filter – Deionization Filter (#2)	CVR3252	$119.85
VistaPure™ Replacement Filter – Deionization Filter (#3)	CVR3253	$119.85
VistaPure™ Replacement Filter – Hyperfilter (#4)	CVR3254	$240.25
VistaPure™ Replacement Filter – Polishing Filter (#5)	CVR3255	$82.90
VistaPure™ Legacy Filter – Polishing Filter (#5)	CVR2551	$82.90
VistaPure™ Water Storage Tank (4.25 Gallon)	CVS9111	$339.40
VistaPure™ Water Storage Tank (9.5 Gallon)	CVS9113	$573.75
VistaPure™ Autoclave Wand	CVS9300	$178.75
VistaPure™ BottleFill Remote Water Dispenser	CVS3050	$229.20

Wastewater Management

The wastewater produced during the process of steam sterilization can often be problematic. Many autoclaves discharge steaming-hot condensation after each sterilization cycle, which is typically collected in a bottle that dental staff members must monitor continuously and empty manually throughout the week. Not only is this process time-consuming and inefficient, but steam and spills from condenser bottles can also damage sterilization center cabinetry.

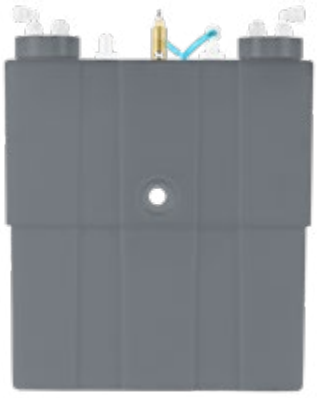
Learn more about our Wastewater Management products.

VistaCool™ Direct-to-Drain Cooling System

The VistaCool™ Direct-to-Drain Cooling System protects drains by preventing autoclave wastewater from melting plumbing. It also protects cabinets by helping to prevent mildew, rot, rust and delamination caused by spills and humid environments created by autoclave condenser bottles. VistaCool™ System saves staff time by eliminating the need to empty steaming-hot water bottles manually.

VistaCool™ Single-Autoclave Cooling System

CVV7501 $1,060.80



VistaCool™ Double-Autoclave Cooling System

CVV7502 $1,417.80

VistaCool™ Adjustable Tank Stand for Single-Autoclave Cooling System

CVS7545 $149.90

VistaCool™ Adjustable Tank Stand for Double-Autoclave Cooling System

CVS7547 $156.60

VistaCool™ Adapter Kit for Midmark® M9® & M11® Autoclaves

CVS7560 $171.30

Accessories

VistaCheck™ Backflow Preventer

VistaCheck™ Backflow Preventer is a QAI certified dual check valve backflow prevention device that can eliminate the need for reduced pressure zone (RPZ) valves, vacuum breakers, and air gaps. It's made from medical-grade components suitable for food contact. Generally accepted by state and local code authorities as suitable for backflow and cross-connection protection.

VistaCheck™ Dual Check Valve Backflow Preventer		
1/4" (6.35 mm)	CVVC250-A	$145.85

DrainHub™ Drain Adapter

The DrainHub™ Drain Adapter is QAI certified and accepts up to eight drain connections in one small hub, saving space, cost and time. It is easy to install: top and bottom slip hubs accept 1-1/2" pipe; bottom hub glues into 2" coupling. DrainHub Drain Adapter has 1/2" NPT threaded ports accept a variety of push-to-connect, compression, and hose barb adapter fittings.

DrainHub™ Multi-Port Drain Adapter		
8-Port	CVDH158	$69.80

DrainHub™ Fittings Accessory Kit		
20 Fittings	CVDH8200	$74.50

DrainHub™ (8-Port) with Fittings		
Accessory Kit	CVDH158-82	$69.80
